

NEC4 Engineering and Construction Contract

Programmes

Speaker: Mark Bezzant of Bezzant Limited.

Title: Programmes under the NEC4 Engineering and Construction Contract.

Summary: The course will provide a reasonably detailed explanation of the elements of the NEC4 Engineering and Construction Contract that concern the matter of programmes.

Objectives: The course aims to provide those delegates who are involved in bidding for and/or administering a contract based on the NEC4 Engineering and Construction Contract an increased knowledge of the information for and use of programmes and the rights and obligations that relate to the matter of programmes.

Topics:

1. Introduction to programming under NEC4
2. 'Accepted Programme' – definition and status
3. Relationship with compensation event procedure
4. Content of programmes
5. Circumstances for revisions
6. Times for submission
7. Incorporating compensation events and other changes
8. Relevance of planned Completion(s)
9. Treatment of float
10. Time risk allowances – purpose and changes in allowances
11. Revising the programme, including incorporating actual progress, plans to deal with delays and other changes
12. Valid reasons for not accepting programmes
13. Basis for assessing compensation events
14. Programming and assessment of compensation events where programmes not accepted by the Project Manager
