

CECA South West Construction Management Development Programme 2019

Introduction

This programme is designed for middle to senior operational and functional managers working in civil engineering or building. The six workshops aim to provide managers with the tools and techniques to effectively manage their job role and to contribute to personal and business improvement.

ICE, CIOB and Edexcel vocational qualification awards at NVQ Levels 6 and 7 accredit the programme. Each training session provides time to assist managers' build their portfolio of evidence. This is complemented by two site visits from a qualified and experienced assessor.
