EMPLOYER
SERVICES

The Construction Gateway developed by West Midlands Combined Authority is a construction programme providing basic training relevant to local jobs. The programmes flexibility allows employers to specify the areas of work that participants will require training in.

As a local construction employer, you can benefit from a free recruitment service. Dudley College of Technology work in partnership with DWP and local agencies to find, select, match and train candidates to meet your individual needs. Delivering work ready candidates for the construction sector. All training is fully funded and includes CSCS card and other mandatory training.
