

NEC4 Engineering and Construction Contract

Contract Data

Speaker: Mark Bezzant of Bezzant Limited.

Title: Preparation and relevance of the Contract Data for the NEC4 Engineering and Construction Contract (June 2017 Edition and with Amendments January 2019).

Summary: The course will provide a reasonably detailed explanation of the content and relevance of the Contract Data for the NEC4 Engineering and Construction Contract and general guidance on the preparation of such Contract Data.

Objectives: The course aims to provide those delegates who are involved in bidding for and/or administering a contract based on the NEC4 Engineering and Construction Contract an increased knowledge of the items in the Contract Data and the implications of those items.

Topics:

1. Purpose of the Contract Data and its relationship with the conditions of contract
2. Description of the works
3. Documents for use as Scope
4. Site Information and distinguishing it from the Scope
5. Identification of matters for the Early Warning Register, additional Client's liabilities for the Contract Data and dealing with pre-contract risk registers
6. Weather data
7. Programme, Key Dates and Completion Dates
8. Optional statements
9. Data for the main option clauses and secondary option clauses
10. Fee percentage
11. Data for the Schedule of Cost Components
