

## **Civil Engineering site staff – Various roles**

Bethell has a 150-year heritage and is a multi-faceted Construction company operating in the north of England, predominantly in the North West. Following on from a significant number of framework contract wins in 2019, we are embarking on a major expansion increasing our workforce by up to 30%.

We currently have a team of over 200 personnel providing the intellectual capacity and skills we need to excel. We have a great reputation with some outstanding clients including many local authorities, private industry and the utility sector. We are passionate about delivering a first-class service to our clients and we are looking to recruit like-minded individuals to help us maintain our excellent standards as our success story grows.

As a team, our people demonstrate how the commitment to a common vision can achieve the most ambitious of goals. That is why we place a huge importance on employing a workforce that stands out from the crowd. We are looking to strengthen our current civil engineering site teams and now seek applications from the following experienced personnel -

- Site Engineers
- Works Managers
- Site Manager
- Project Managers

A career with Bethell means you will have the freedom to develop your skills and make a positive impact on the environment and communities in which we work. To attract the best in the industry we offer –

- A stimulating, challenge-driven work environment
- Highly competitive salaries
- An extensive range of staff benefits including Life Assurance, Company Pension Scheme, Profit Sharing Scheme, Holiday Buy Scheme and Voluntary Flexible Benefits
- Innovative training development programme

Bethell is an equal opportunities employer and are accredited with both Investors in People and The Workplace Wellbeing Charter.
