

CECA (SOUTHERN) CONTRACTUAL COURSE

NEC4 PRACTICAL APPLICATION WORKSHOP

This one-day workshop is a practical look at some of the more significant aspects of the NEC3 / NEC4 Engineering and Construction Contract. Each of the contractual areas covered will consider what the specific aspects are for that element of the contract, before carrying out in small groups an associated practical exercise to enhance the level of understanding as to how it can be administered in practice.

This workshop is recommended for everyone currently or about to be working under an ECC contract including project managers, contract managers, quantity surveyors, clients, consultants, planners, contractors and their supply chain. This session will be suitable for those who are relatively new to these forms of contract as well as those who are already more experienced in the contract and looking to enhance their level of knowledge and understanding.

The course is delivered by Glenn Hide, GMH Planning

The full course outline can be found [here](#).

Date: Thursday 8 October 2020
Start 08:45 - Finish 16:15

Venue: Virtual via MS Teams
