CECA Stop. Make a Change

CECA has announced it is to partner with [Cancer Research UK](#) and industry charity [Mates in Mind](#) to deliver the 2020 'Stop. Make a Change' campaign 'SMAC-20.'

'Stop. Make a Change' is the only campaign of its sort in the UK construction sector, in which sites, offices and production facilities down tools to focus on working together to build a healthier, safer industry.

This year the campaign is to run between 10-23 October, to coincide with World Mental Health Day and the European Week for Safety & Health. SMAC-20 will entail employees from across the industry engage in conversations, focussing on specific topics with relevance to individual health, enabling those working in UK construction to re-engage with their own health, safety and wellbeing, and to ask themselves what needs to be changed, along with how they might go about making that change.
