

CECA South West Podcast Series

The CECA South West Podcast Series is aimed to be a series of podcasts based on the civil engineering and construction industry. The podcasts themselves will have a selection of speakers with a variety of knowledge, experience and abilities from all walks of life in the civil engineering and construction industry.

We are looking for volunteers who are passionate about their careers in civil engineering and construction to provide a 60 second voice recording stating why they are excited about the job they do.

From those submitted, a selection of candidates will be asked to record a podcast in conversation with a host from the CECA South West Foundations Group (SWFG) to discuss their careers and projects that they have worked on as well as their enthusiasm for the industry.

To apply, please fill in the application form details below and send your 60 second voice recording to southwestfoundations@cecasouth.co.uk stating why you are passionate about the job you do.

We look forward to receiving your application. Good luck!
