

Do you want to upskill your Civil Engineers towards enhanced design capability?

Do you have Level 5 qualified staff with EngTech who have the potential to take the next step with your business and with their professional career?

Our new 2 year fast-track work-based degree is aimed at your experienced engineers who do not yet have a degree level qualification. The programme is technical in nature and design related aspects, including:

Structural analysis

Design and hydraulics skills in complex scenarios

Sustainable and ethical engineering

Research and project management skills to deliver projects on time, on cost and to the right quality

Specialist modules include Geotechnical Engineering, Water Engineering and Structural Engineering Design

Students carry out a detailed research programme that may be in an area of specific relevance to their work, or alternatively be in a new area of interest.

Successful completion of the Degree Apprenticeship, giving you the BEng (Hons) Civil Engineering (L6 Degree Apprentice) also provides the basis for your IEng status application. Allowing the opportunity to register for the IEng during the programme

## Civil Engineer Degree Apprenticeship Open Day

Wednesday 26th May  
at 11.30am

Applications are now open for our September 2021 intake of our **Civil Engineer Degree Apprenticeship**.

Our 'Fast Track' degree programme is delivered via day release over two years.

Learning is supported through our online learning platforms and complimented by visits into the workplace by an allocated Workbased tutor. In addition to this, apprentices will work to bring their work based skills development and academic development into context.

As part of this launch we would like to extend an invitation to our Employer Open Day hosted by Programme Manager, Dr Jon Miles.

At the session Dr Jon Miles will give information on the new Level 6 Degree Apprenticeship scheme, and the Central Apprenticeships Hub team will be on hand to discuss the three way engagement between the Employer, the University and the Apprentice.

To register please contact: [heather.platt@plymouth.ac.uk](mailto:heather.platt@plymouth.ac.uk)
