

30 March 2022

# CECA North West Foundations

## NET ZERO: CHALLENGES & PRIORITIES FOR CIVIL ENGINEERS

A joint event with Liverpool John Moores University, Wednesday 30 March 2022

Peter Jost Upper Lecture Theatre, Liverpool John Moores University, Byrom Street, Liverpool L3 3AF

This is aimed at anyone new to the industry, but all CECA NW members are welcome to attend. The University will also be inviting civil & structural engineering students.

The purpose of the event is to establish closer civil engineering industry and student links generally and increase students' understanding of the range of employment opportunities in the industry in the context of increasing challenges (environmental, technological, staffing etc). We will be providing lunch and refreshments when there will be an opportunity for you to chat informally with students about your route into civil engineering contracting and also what you enjoy about working in the industry.

The event begins at 13.00, for lunch and refreshments, and the presentations will begin at 13.30.

We have an excellent programme with three speakers, who are:

- Steve Bassett, Delivery Manager for The Environment Agency
- Jonathon Hook, Senior Environmental & Sustainability Advisor, J Murphy & Sons Ltd
- Peter Crosland, National Civil Engineering Director for CECA Ltd

We will be booking some car parking spaces, but as they are first come, first served, the nearest alternative car parks are:

- Hunter Street, Liverpool L3 8EN
- NCP, Off Primrose Hill, Trueman St, Liverpool L3 2BA

To book your place: <https://www.eventbrite.co.uk/e/net-zero-challenges-priorities-for-civil-engineers-tickets-295249227387>
