Invented for life

South East Region
Sussex and Surrey Area

THE ROLE OF HYDROGEN IN MEETING NET ZERO GOALS

Institution of
**MECHANICAL
ENGINEERS**

With applications in transport, heating, and decentralised power, hydrogen is a key piece of the puzzle in meeting net zero. Adoption of H₂ requires development of the necessary infrastructure and supply chain. This lecture will examine opportunities and challenges in deploying H₂, with a glimpse of how Bosch is leading development of technologies across the H₂ Ecosystem.

Thursday October 5th 2023

Fulton Lecture Theatre, University of Sussex,
Falmer, Brighton, BN1 9QJ, At 18:30.
Refreshments will be provided.
